The three days' Ohio Rebekah assembly was brought to a close at the I. O. O. F. temple Thursday night with approximately four hundred visiting and local members of the ladies' auxiliary of the Odd Fellows lodge in attendance. The thirty-fifth assembly that convened in Coshocton Tuesday, Wednesday and Thursday was largely attended by the visiting delegations from all parts of Ohio.

Bell, of Columbus, was elected secretary and Mrs. Cora Rise, of Toledo, was elected treasurer.

The officers were installed by the past presidents of the Rebekah lodge. The Lackawanna lodge of Newark conferred the Rebekah degree upon two candidates at the Odd Fellows temple last night.

The local Rebekahs not only give the visiting delegations a roasting reception, but joined in extending the visitors entertainment.

The visiting Rebekahs appreciated them during the convention.

The Rebekah Assembly next year will be held at Cleveland. The thirty-fifth annual Rebekah convention in Coshocton was pronounced a huge success by all who participated in the three days' meet.

### SECOND SUIT FOR DIVORCE IS FILED BY MRS. ALVERSON

Nettie Alverson has filed a second petition in probate court asking a divorce from Harry Alverson on the grounds of gross neglect of duty and extreme cruelty. They were married June 9, 1918, and have one child 2 years of age. A former petition which was filed a short time ago was withdrawn.

The plaintiff in her petition, says that the defendant has failed and refused to provide for her and their child and that she has been forced to work, although physically unable to do so.

She alleges that the plaintiff has a cruel and unpleasant disposition and that he often accuses her wrongfully of associating with other men. She claims that he has threatened to do her bodily injury and that she is afraid to live with him. According to the petition the defendant, when working squanders all of his earnings gambling, and takes money from the plaintiff for tobacco and shows.

The plaintiff asserts that the defendant is not a proper person to have custody of their small child, and therefore asks for the custody of the child herself.

Lloyd S. Leach is representing the plaintiff.

### WOMAN BLUEBEARD IS CAPTURED IN HAWAII, CHARGED WITH SIX MURDERS

LOS ANGELES, May 13.—Immediate steps will be taken for the extradition of Mrs. Lydia Trublood Southard under arrest in Honolulu specifically charged with the murder of her former husband, Edward Meyer, of Pocatello, Idaho and alleged by officers to have poisoned three other husbands, a brother-in-law and her baby.

Deputy Sheriff V. H. Ormsby, of Twin Falls, Idaho, who with officers here caused the arrest of the alleged modern "woman bluebeard" announced today he planned to leave for the prisoner as soon as the necessary legal papers could be prepared. The arrest of Mrs. Southard furnished one of the most sensational criminal cases ever brought to light here.

Described by persons who knew her, as attractive, she was alleged by the authorities to have planned with unusual cunning the deaths of relatives in a scheme to collect life insurance.

The list of alleged victims, as filed at the sheriff's office here, is as follows:

Edward Dooley, Kettleville, Mo., her brother-in-law, who died at Twin Falls, Idaho, August 9, 1915.

Robert Dooley, Kettleville, her first husband, who died at Twin Falls, shortly after the death of Edward Dooley.

Baby Dooley, aged 2, whose death occurred a week after that of its father.

William F. McHaffey, Twin Falls, her second husband, who died at Hardin, Mont., in 1918.

Arrian C. Lewis, Denver, her third husband, who died at Bunge, Mont., in 1919.

Edward Meyer, Pocatello, Idaho, her fourth husband, who died September 7, 1920, at a ranch near Pocatello.

The sheriff's reports charge that in each case the woman strangled her alleged victim with a piece of cloth, and under the care of a physician by advertisement.

### A COMMUNIST STATE HOPE OF THE OPPRESSED SAYS LAWMAKER

Lloyd George Believes The  
Revolutionary Movement  
Gets Outside Help

#### OUTLOOK IS SERIOUS

#### Army And Navy Found To Be Sprinkled With Leaders In Rebel Movement

LONDON, May 13.—"The government is carefully watching developments in the revolutionary movement in Great Britain declared Premier Lloyd George in the house of commons this afternoon.

The premier's declaration was the first official admission from the British cabinet that the gigantic labor war which has engulfed the country has taken on a revolutionary trend against the government.

"There is no doubt that these are revolutionary movements but to what extent they are financed abroad we cannot say," said the premier.

Lloyd George's announcement was made during the course of debate on the grave industrial crisis which has been precipitated by the national coal strike.

Leading members of the house of commons described the outlook as blacker than it has been at any other time since the coal strike began 43 days ago.

"The stoppage of work in the coal fields is a deliberate attempt to destroy British industry and create a Communist state in Great Britain," was the charge made by Brig. Gen. Page-Croft, representative of the National party in commons.

LONDON, May 13.—Menaced by an unprecedented labor crisis which threatens to develop into a revolutionary outbreak, the British government is taking stern measures to stamp out all seditious activities not only in the ranks of the labor organizations but in the army and navy as well.

Agitations by German Communists have been added to the other troubles. German Red agents are known to have come into the country to reinforce the Polish plotters already upon the ground.

It is learned that secret service men raided a ship which arrived at Hull from Germany on the tip that a Communist agent was on board. The vessel was searched but the Communist escaped. However about a ton of revolutionary literature was found and seized.

The guard upon the ports along the eastern coast has been redoubled to prevent the entrance of Red works and Red literature from Germany, Russia and the Scandinavian countries.

Steps are already being taken by the government to prevent the sending of foreign money into Great Britain to (Continued on Page Four)

**Dominion Rule For Ireland**  
The happiness of Ireland seems to hang on internal politics. The British government has apparently made what, with one amendment, will be a possible offer. Six years ago it would have sent the Irish into a rhapsody: even today, when Sinn Fein has taught them to expect so much more than Redmond asked, it has not the favorable attention of Republican leaders.

The proposal, if accepted by both north and south, would give Ireland the full status of a dominion. Complete financial independence would be guaranteed, with the control of customs, excises, and income taxes. The Irish judiciary and the Irish police would be under the Irish government, and the present heavy contributions to the British treasury would be abolished. The only unfortunate clause is the proposal to keep British garrisons in Ireland. Lloyd George might be made to see the uselessness and unwisdom of this in view of what British troops have come to mean to the Irish.

Aside from this point, there are but two difficulties in the way of acceptance. The north and south must first be fully reconciled. Whether this can be done or not depends chiefly on Ulster. If a reconciliation can be effected, the further question arises of the attitude of the Sinn Fein. Its leaders are reported as favoring the proposed settlement. There is a doubt, however, whether, having persuaded their followers that a republic is necessary, they can now persuade them that it was necessary to ask for complete independence only that qualified independence might be secured.

Perhaps the leaders can do this if they wish. Unless there is a joker in the government offer it seems the only possible ground of compromise, and the Irish must see themselves the difficulty of getting more than the most favorable possible compromise. Under full home rule they would get rid of all but the shadow of England. They would have the consciousness of an essential independence won by their own insistence and guaranteeing them their own institutions and government. It is a great deal compared with what Ireland has had, or with what England has heretofore proposed to give her. Sinn Fein leaders will have every argument for it but consistency.

**Germany Says "Yes"**  
The majority which is for the moment dominant in Germany has accepted the Allied ultimatum in a mood which for once commands respect. "There is one point," said Premier Wirth in his brief address to the Reichstag before the vote was taken, "concerning which there must be no obscurity. It would be useless to say 'Yes' without the resolution to do our utmost to meet the obligations imposed upon us."

The moderates in the Allied countries and in the United States will be disposed to accept this statement at its full value and, unless the Germans are proved otherwise, give them the credit for being at least sincere. Not since 1914 has there been such a relaxation of the warlike mood. This comes, perhaps, from a belated realization that the economic reconstruction of Europe waits upon a restoration of something like equality among the nations. Germany has a penance to make and a debt to pay, but if she abides faithfully by Tuesday's decision she will not and cannot be treated any longer as a criminal or an outcast. She has taken the decision to work out her freedom, and the Allies are under the responsibility of assisting her to do so.

The attitude of America, which was known to be against military measures and in favor of the imposition of conditions that Germany could meet, probably had much to do with Germany's surrender and with the failure of the French extremists to precipitate an invasion of the Ruhr. The French attitude is still a disturbing element. If France were represented by Professor Seydoux, the chief economic adviser of the Briand government, who is quoted by Mr. Grasty in the Times as insisting upon "the good will of Germany" as "essential to satisfactory results," and who even dares allude to the New Testament's promise of peace "among men of good-will," there could be no doubt of the outcome. But if the France that must be dealt with is the agency which is maintaining "benevolent neutrality" in Silesia, where an army of Poles supplied with French machine guns is defying the Allied plebiscite commission and killing Allied soldiers, the outlook is dark.

The weight of American approval will be behind the enforcement of the terms Germany has accepted, provided enforcement is carried out as a business matter, by business men, financiers, and economists rather than by soldiers, and provided that no attempt is made to force German living standards below a civilized level. But Americans are sick of military adventures and will have no patience with any further sword-rattling in France, Poland, or elsewhere.

## The Story of Our States

By JONATHAN BRACE  
XXX.—WISCONSIN

THE story of the first white man to settle in Wisconsin is a story of the French influence in its early settlement. The first white man to settle in Wisconsin was Jean Nicolet, who was sent out in 1634 by Champlain to open trade with the Indians. He landed at Green Bay and probably traveled the country to Chicago. Fur traders and missionaries followed and the latter built a mission where Ashland now stands. This was the first church erected in the state and around it sprang up the first permanent settlement. Joliet and Father Marquette descended the Wisconsin river, and La Salle explored a great deal of Wisconsin before he took his famous trip down the Mississippi. Among the fur traders to come to Wisconsin shores was Daniel du Luth, after whom the city of Duluth, Minn., was named.

During the Revolution Wisconsin remained loyal to the British and though Wisconsin became a part of the United States by the Treaty of Paris in 1763, it was not until 1816 that federal troops really established authority there. Indian uprisings continued for some time ending only with the Black Hawk war in 1832. Then followed extensive immigration from the New England States.

Wisconsin had formed a part of the Northwest territory until 1800, when it became a part of Michigan territory, under which jurisdiction it remained until 1835, with the exception of nine years, when it was considered a part of Illinois territory. With the admission of Michigan as a state, the Wisconsin territory was created, which included also the present states of Iowa and Minnesota and portions of North and South Dakota.

In 1838 Wisconsin was taken into the Union as the thirtieth state. Its area is 54,000 square miles and it has thirteen electoral votes for president.

The state is named after the Wisconsin river. This is an Ojibwa phrase which means "gathering waters." It is sometimes called the Badger State. (By McClure Newspaper Syndicate)

Only a few city blocks from Fifth Avenue in New York City, a social chasm deeper than the one that separates the shiny serge of Avenue A. from the shiny silk of Fifth Avenue, New York City is made into a herd of sheep and Avenue A may soon become a performed purgatory.

On a Sunday afternoon stroll I wandered down Avenue A from the site of the new Vanderbilt home. Knots of leering young embryo gangsters congregated in front of the shuttered saloons on the corners. Shirt sleeved men with pipes and old women strolling on the stoops. In the courtyard of an abandoned brewery young girls roamed and skirted in shabby lacy underwear. Their Broadway sisters danced with youths who wore caps. A big drink came on the wall read: "To the Thirties. The Thirty First Street Gang bars you from the dead line. Take's Third Avenue and keep away or get lost up." A hurly ground out last summer's popular air.

The side streets are swarming with children, mostly of foreign parentage, and the streets were filled with broken glass—a civil barrier the parents erect against the trespassing by motorists. A head band on every woman's forehead and a look of hopeless hope for some relief from the terrible heat of mere existence.

"I hope to get a new name," a youth whispered at my elbow. He was a "week-day" immigrant. I knew he was a "week-day" immigrant. I knew he was a "week-day" immigrant. I knew he was a "week-day" immigrant.

need a cup of coffee and a bowl of soup." The telephone is quick but the magic of Avenue A's signals is quicker for three blocks south than for three blocks north. It is difficult to believe that Avenue A. will become a glorified Pomander walk for society and yet so swift are the changes that I now believe what I used to doubt—that early day Manhattan used to drive in coaches to what is now Forty Second Street and Broadway to hold outdoor picnics.

"Millinery for Bobbed Hair"—that is a sign under the name of a French milliner who has opened up a shop in the downtown section. Her shops will be exclusively for patrons who have bobbed hair. Bobbed hair requires a certain type of headgear and so great is the army of short haired girls and women that the milliner is simply filling a genuine feminine need.

There is one news story in New York that the newspapers kindly suppress each year. At least they do not mention any names. In one of the big hotels there is an annual dinner in a private banquet hall. Well dressed men in evening clothes to the number of 40 attend. There is nothing about them to indicate that they are anything but what they are—successful business men. They discuss over their meal the topics of the day and all know each other by first names. But when cigars are lighted, waiters and bus boys are driven out and the doors are locked. Then they discuss the past. All are ex-convicts who have served terms in Sing Sing. Two or three former wardens are usually the guest of honor. They have proved that an ex-convict can make good.

It would appear that New York fight fans are anxious for Carpenter to win the fight with Dempsey. Most of the newspapers hint that the verdict for the Frenchman would be welcomed. Perhaps the reason is best explained in the following editorial squib in a New York newspaper:

BLESSINGS OF POVERTY

Men should be thankful to be poor and have no hefty roll; for men of substance must endure the griefs that rack the soul. When I go forth, all dried and spent, my income tax to pay, I envy much the busted gent who gambols on his way. He is as happy as the bird that roosts in yonder oak—oh, if he's not, he is absurd, for he is stony broke. Oh, all the nations are in debt, our own among the rest, and thrifty delegates must get the treasure from their chest; that government may function still each must produce his wad, must pay up the greenbacked bill for which he scratched and clawed. And even patriots get sore, and raise a doleful sound, when they must shell out half their store to make the wheels go round. And while they feel taxation's sting, and say that life is mean, the merry paupers form a ring and dance upon the green. They're flush if they have fifty cents, and such sums are not taxed, and so they jeer the thrifty gent who have so wealthy waded. We ought to frame some other plan to pay the nation's debts, for taxes penury the man who in the vineyard

## BOTTOMLESS POOL, NATURAL WONDER, DISCOVERED IN SANDUSKY COUNTY

SANDUSKY, O. May 13.—An amazing, bottomless pool rivaling in depth that of the Catalina "Blue Hole" of the famous Catalina bubbling springs near there, has been found in Townsend township, Sandusky county.

It is located three miles across from the Erie county line and three miles south of White's Landing on Sandusky Bay.

The second Blue Hole is a natural wonder. It is fed by springs. Although it is little known, a number of tourists and hundreds of visitors group around it on good Sundays. A trout stream which empties into the bay, flows from the pool.

Nestled in a hollow, and surrounded by trees, with grounds sloping gradually down towards the pool, the water presents a beautiful appearance. The

## FITS OF TEMPER ARE AN AILMENT

**A Nervous Run-Down Condition is Frequently the Cause of an Irritable Ill-tempered Disposition.**

Recently a user of Redex testified to the fact that since taking this remedy he had been able to keep his temper under much better control.

To many people this may seem a futile thing, but scientists think there is nothing more wearing on any life than sudden fits of temper. They are in nearly every case the direct results of nerve trouble.

They are caused by the diseased imagination magnifying the smallest troubles, and also encountering misfortunes before they ever occur. Disease has caused the nerves to be on edge all the time, and the slightest thing will make the mind cross and irritable.

Redex is an ideal remedy for such cases of nerve trouble. It brings new shine to the body, and misfortunes are banished.

Some symptoms of nerve trouble that Redex has relieved are: Indigestion, pains in the back and head, loss of sleep, insomnia and a general run-down feeling.

Redex can be obtained at all leading drug stores in Coshocton.

water is of such a deep color, that a hundred feet away it is hard to tell whether it is blue or not. The pool is almost circular, and is about 100 feet across. The depth starts almost from near the shore.

In just what part of the big pool the great mass of water rises has never been determined, although it is believed to be on the west side.

Ropes have been let down in the pool to a depth of 100 feet and no bottom found, say fishermen in the vicinity.

The pool is said to be full of trout, which go from it down the stream to the bay. Most of the fishermen in the vicinity appear frightened to venture upon the pool in boats, because of its unknown depth.

The water always is warm in the pool, and on a cold winter day, there is a fine steam arising from it. The colder the weather, the warmer the water in the pool.

The body of water is in an isolated part of the county, far from railroad or traction car. It can be reached only by automobile, which probably accounts for its being comparatively unknown.

The pool is located on a farm owned by the Miller estate. Several trout fishing clubs are said to be dickering for it.

## BREWING INTERESTS WOULD HELP FIGHT VIOLATION OF LAW

WASHINGTON, May 13.—Brewing interests joined with prohibition leaders today in a demand for legislation preventing the sale of beer for medicinal purposes.

Oliver T. Remmers, counsel for the Anheuser-Busch Brewing Co. and Wayne B. Wheeler, counsel for the Anti-Saloon League appeared before the house judiciary committee in favor of the Volstead bill which would prevent the sale of beer for medicinal purposes and to check further imports of liquors until the domestic supply is reduced.

Remmer charged the present law is not being enforced and asked a congressional investigation in the interest of those brewers who are obeying the law strictly.

Wheeler said that the greatest evil now lies in the great volume of importation of liquors.

He said the stock in the bonded warehouses on April 1 was greater than that of January 1 of this year. The imports aggregate in value during the past year \$3,260,000. There is in warehouses 9,464,000 gallons of malt liquors, 29,919,000 gallons of spirits, 58,000 gallons of cordials, 29,000 gallons of gin, 167,310,000 gallons of whiskey and 32,287 dozen bottles of champagne.

"Prohibition is a growth," said Wheeler. "The states are now enacting laws to meet the devices and schemes to defeat the enforcement act."

Wheeler condemned the many medicinal preparations and spoke of the difficulty in safeguarding the issuance of permits to dispense liquors.

There are 1,000 of these permits that should be revoked, he said.

Remmers, of the Anheuser-Busch company said the impossibility of the equitable and impartial enforcement of the prohibition laws permitting the use of beer for medicine will result in criticism and abuse of manufacturers of lawful cereal beverages and may bring further ruinous legislation upon the industry and destroy the soft drink business.

"Authorization of the sale of beer for medicinal purposes under the provisions of the present enforcement act will make it absolutely impossible to enforce prohibition laws," said Remmers.

"While we are unalterably opposed to the principle of prohibition we insist that the law should be enforced to the letter, fearlessly, fairly and with impartiality. Beer will be sold at outrageous prices thru unrestricted channels, to the health, and not the sick. Our concern has been penalized to the extent of \$5,000,000 a year solely because it obeys the law."

Remmers said that Chicago brewers are manufacturing and selling beer openly. He said the country would be benefited if congress should authorize 4 1/2 per cent beer.

The final performance of D. W. Griffith's world wide magnificent motion picture, on the elaboration of "Way Down East" was shown at the Sixth Street theatre Thursday night to a capacity house.

The theatre-goers of Coshocton who saw this picture realize that "Way Down East" is just a simple story of plain every day people. From the slow lifting of the curtain amid the plaintive strains of "Home, Sweet Home," to its fall amid the tumultuous applause of a wildly enthusiastic audience, "Way Down East" was a story of human hearts, unfolded in a simple, soul reaching way under the master guidance of D. W. Griffith.

"Way Down East," like Mr. Griffith's "Birth of a Nation," will probably be remembered in years to come.

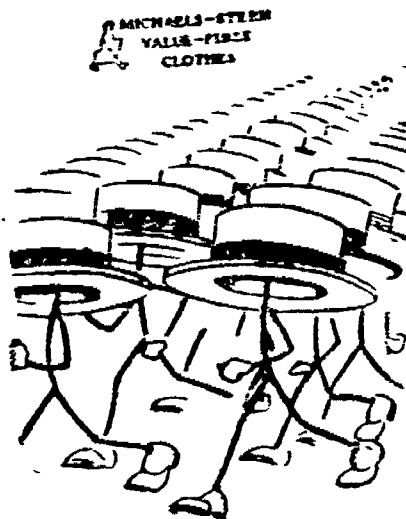

The orchestra that accompanied the picture from beginning to end made each and every part of the drama effective. The out-bursts of the orchestra during the ice jam scene in which David and Anna stage a thrilling scene

THAT LITTLE LUMP OF COAL

(Published by Request)

To those who know no better and the ones who do not care,  
I take this means of telling what a miner has to bear.  
So when your servant fires the furnace and the smoke and flames roll,  
You can stop and think who suffered for that little lump of coal.

When he gets up in the morning and you're in the land of nod,  
While at the family altar he will kneel and ask his God  
To care for and protect him from dangers underground,  
So he can come back in the evening to his family safe and sound.

He eats a hasty breakfast and fills his carbide flask,  
Picks up his lamp and bucket and he's ready for his task.  
Says good-bye to wife and baby, stoops to kiss them at the door,  
And doesn't know if he'll see them here in this life any more.

So he's soon below the surface, gets his car up in the place,  
As he swings his pick and shovel the sweat pours off his face.  
He's weak and tired and weary when two hours have rolled around,  
But he's got six more to suffer until he gets above the ground.

He has to eat some timbers, then drill a hole or two,  
And then he'll roll some dummies, then there's something else to do.  
So he stays and slaves and labors, loads every car he can,  
To earn a meager living and pay the clothing man.

When he lines up at the office with the others in a row,  
With their statements signed and ready for a little bit of dough,  
And everything he's buying is away up in the air,  
Do you think that what he's asking for is anything unfair?

He only asks for wages that enables him to share  
A part of mortal's pleasures, and that is only fair.  
A six-hour day and Saturday to stay at home and see  
The sun rise in the morning like God aimed for us to be

So, brother, when you're knocking on the man that digs the coal  
Just stop and think he's human and has a heart and soul,  
And don't forget the millions of tons he loaded out  
When the Kaiser tried to smear on us his lager beer and kraut

So tell your pals and neighbors and your servants and your wife,  
That the plaster of your office room cannot crush out your life,  
And it's just a dirty miner, a sort of human mole,  
That takes those dangerous chances for that little lump of coal.

START TOMORROW  
AND KEEP IT UP  
EVERY MORNING

Get into the habit of drinking a glass of hot water before breakfast.

Millions of folks bathe internally now instead of loading their system with drugs. "What's an inside bath?" you say. Well, it is guaranteed to perform miracles according to hot water enthusiasts.

There are vast numbers of men and women who, immediately upon arising in the morning, drink a glass of hot water with a teaspoonful of limestone phosphate in it. This is a very excellent health measure. It is intended to flush the stomach, liver, kidneys and intestines of the previous day's waste, sour bile and indigestible material left over in the body which if not eliminated every day, become food for the millions of bacteria which infest the bowels, the quick result is poisons and toxins which are then absorbed into the blood, causing headache, bilious attacks, foul breath, bad taste, colds, stomach trouble, kidney misery, sleeplessness, impure blood and all sorts of ailments.

People who feel good one day and bad the next, but who simply can not get feeling right are urged to obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to make anyone a real crank on the subject of internal sanitation.

State department officials have been studying the figures on German trade in recent months. The result of this study, it was said today, has convinced them that despite the seeming severity of the allied terms, Germany can nevertheless discharge her obligations without crippling to any appreciable extent her healthful activity and growth economically.

WASHINGTON, May 12.—Attorney General Daugherty said today dealers must "go some" to justify certain kinds of profiteering.

The attorney general is something of a price expert. He says every bill he gets for goods is an "eye opener." Mr. Daugherty long ago worked in a general store and sold beans, molasses and dry goods.

NEW "TEN COMMANDMENTS" TO  
REGULATE MARITAL LIFE ARE  
APPROVED BY A FRENCH JUDGE

PARIS, May 12.—A new "Ten Commandments" regulating the relationship between wife and husband have just been approved by a French judge and now that worthy citizen has had to connect his telephone at night to escape the denunciations of angry women.

The marital "Ten Commandments" were written by a French official. Returning from the front he found that his wife had become too independent during the war, wore knee-length skirts, used a whole lot of slang and "let lower her eyes" when she got the "glad eye" from other men.

The returned officer decided to apply some of the kind of discipline that made Foch's military machine more efficient. He wrote the "commandments" and pasted them up in his wife's boudoir. She tore them down and served notice that she wouldn't obey them. The husband sued for divorce, and the judge said he was right and set him free.

## HUNDREDS OF POLES SEEK TO EMIGRATE TO AMERICA

WARSAW, May 12.—One of the new "daily sights" of Warsaw is a line of 1,500 Polish and Jewish fugitives from all parts of Poland seeking permission to go to new homes in peaceful America. The line stretches away from the American Consulate, housed in a huge market building which has a great glass roof and resembles a New York steamship pier shed.

Every one in the line must be armed with four things: a Polish passport, \$10 in American currency for the visa,

a certified letter from relatives in the United States and a third class steamship ticket. Only about 500 can get visas in one day.

The majority of the applicants are Jewish women and children, dependents of persons now living in the United States. Many of their men folk went to America before the war, intending soon after their arrival to send for their wives and children, but the war cut them off. In one day recently there were 300 women applicants from the town of Cholm. Most of their husbands had gone to New York before the war and Hester street was a common address.

The Warsaw line forms early in the morning, long before the light is up and most of the people in it are prepared to stand there all day. Food is hawked to them in the course of the day on trays much like ice cream cones or refreshments at American baseball games. Mattresses on which women and children sleep are also common sights.

### Weed Out Frauds

Attempts to sell fraudulent visas to the unsuspecting in the line are frequent and are giving the authorities a great deal of worry. Coming from the devastated lands of Poland, the ignorant refugees fall easy victims to the false tales of easing their way to an American visa and the steamship for the promised land. The practice has become so widespread that it has

## NERVOUS, RUNDOWN PEOPLE NEED THIS SPRING NERVE TONIC

Take Evans' Triple Phosphates three times a day for three weeks and you'll feel like a new person. Old fashioned spring tonics are good as far as they go but they don't go far enough. Overwork, worry, excessive eating, late hours and too strenuous living during the winter months means that your nerves have been abused and you need the best remedy you can get to put them in good shape.

Get Evans' Triple Phosphates today. In two days you'll step livelier, your eyes will brighten; you'll start to grow younger instead of older and soon you will regain the old time vigor and confidence and no one will dare to suggest that you are "down and out" or have "lost your grip." Evans' Triple Phosphates are guaranteed by Wimmer Arnold Co. and all good pharmacists to do just what is claimed for it or money back.

resulted in numerous arrests and cancellations of passports.

In an effort to discourage the practice, American Vice-Consul Huddie stepped out of his office on the top tier of the market building the other day and delivered a speech to the emigrants in which he warned them against those who were preying on their ignorance.

"Thirty-four emigrants," he said, "have been imprisoned in New York where they were trying to get into the United States with false American visas. Thirty people are being sent back from Gdansk, Sweden, where they were stopped by the American authorities. They cannot go to America because they had false visas."

"Many other emigrants have been arrested in Danzig, Rotterdam and Amsterdam because they were trying to get on ships for America with false passports and false visas. All of these people will be prohibited from going to the United States."

### Some Cold Advice

"Hundreds of swindlers are in Warsaw trying to steal your money. They say they can get the American visa for you. They are liars and cheats. They will only make trouble for you and you can never go to the United States if you deal with them."

"Tell all your friends to beware of passport cheats and visa swindlers. Tell them the American officials know all about their game and that everyone who possesses these false documents will be caught and will not get to that land of their heart's desire."

The Hebrew Sheltering and Immigrant Aid Society for America is co-operating with the American authorities in their efforts to run down the false passports and visas, and their agents are working both in Warsaw and Danzig, where most of the emigrants embark for the United States.

Danzig is crowded with fugitives who have passed through the routine of procuring visas at Warsaw and are waiting for their ships. There are several camps full of them and the authorities are taking precautions to prevent outbreaks of epidemic diseases.

### Bandits Get \$7,000

CHICAGO, May 12.—Three auto bandits Thursday robbed the State Commercial & Savings bank of \$7,000 in currency. Automobiles filled with police "motorized squads" are trailing the bandits.

## PRESIDENTIAL ELECTION DUE IN GERMANY

Ebert May Win Post Again Because of His 'Harmlessness.' Von Hindenburg Mentioned as Possible Contender.

BERLIN, May 12.—President Ebert will run for re-election if he is assured of a sure thing. If the parties' lineup and choice of candidates indicate a possibility of his being defeated President Ebert will decline the Majority Socialist party nomination with thanks, issuing a statement that he wishes to retire to private life. This information is from Majority Socialist leaders in the intimate circle surrounding Ebert.

The Presidency of Germany resembles the post of President in the United States only in title. The German president has but little practical influence in political decisions. The principal business of the president is to officiate at the dedication of public buildings, orphan asylums, to open exhibitions and charity bazaars.

Two years ago Ebert was elected temporary president at Weimar, until the country should be put in order and a regular first President of Germany could be elected. For the last two years Germany has been procrastinating about when that regular election should be held. The politicians at the helm now announce that the election will take place as soon as the Upper Silesian boundary is settled, which is promised for next month.

Von Hindenburg Crowded Out

One of the purposes of the Kapp revolution was to force a Presidential election. The Kappists were backing Field Marshal von Hindenburg for the post, but he upset their plans by asking the Kaiser's permission to run for the presidency. The Kaiser's answer was never published, but the royalists suddenly changed their programme and began to announce that Ebert suited them quite well.

It is surprising that it is among the royalists that the staunchest admirers of Ebert are found. "He has something of the craft of the fox, you know," is their frequent comment.

The conservatives and royalists, representing the moneyed interests, are backing the postponement of the election. A new election will throw the country in an uproar and disturb Germany's attempts to get back to industrial equilibrium, they contend. The Presidency is not important in a practical way, therefore let us let well enough alone, they continue. As a matter of fact it begins to look as if a large part of Germany is willing to have Ebert continue in office until retired for old age.

The German can't see the use of throwing the country into an uproar every few years to elect a new president. If he is good and holding down the job thoroughly and not grafting, why put in a new man who knows nothing about the post? is a frequent argument.

### Ebert Wants Axe to Fall

President Ebert himself, however, does not seem to share their viewpoint, for he has several times written to the inter-party council of the Reichstag requesting them to agree upon the date for the first national presidential election. The council has always found reasons until now to postpone it. Unless new complications arise and the political procrastinators postpone it again, the election should take place some time in June or July.

### Ebert a Poor Man

What to do with the past president is a subject that is bothering the German politicians, especially the Majority Socialists, to which party Ebert belongs. They have several times asked Americans how we dispose of our former chief executives. Ebert will leave the presidential palace at 13 Wilhelmstrasse a poor man, and his party friends must find him some sort of a post which will support the Ebert family. The socialist state that from reasons of propriety would be impossible to make a member of the Reichstag, the 2 of a city, as was done with Schumann, or the president of a province as the socialists did for Noske when the wolf was at the Noske family door. It is frequently stated that one reason why Ebert will accept the nomination if assured of success is that he needs the 100,000 marks a year.

Two years have elapsed with no strong candidates appearing to contest Ebert's re-election. Prince Max of Baden has been mentioned, as has also von Hindenburg, but apparently both of them want the nomination thrust upon them with an 18-karat guarantee of election. If no strong inter-party combination appears against him, Ebert will again be the candidate of the Majority Socialists. But under these circumstances, with the result a foregone conclusion, why should we go to the expense of a new election? demand the Majority Socialists.

### Urges Speed By The Railroad Labor Bd.

WASHINGTON, May 13.—The United States railroad labor board sitting at Chicago, was criticized severely today by Senator Polinder, Republican of Washington, for its delay in deciding wage disputes and adjusting working conditions, during cross examination of Julius Kruttschnitt of the Southern Pacific board of directors, who appeared before the senate inter-state commerce committee to present the case of the steam lines in the transportation investigation now in progress.

**STEEL CORPORATION MAKES A BIG CUT IN ITS MINERS' WAGES**

CONNELLSVILLE, Pa., May 13.—More than 25,000 employees of the H. C. Frick Coke Co. will have their wages cut from 25 to 35 per cent when a new scale is put into effect next Monday. The wage cut affects the workers of the entire Connelville region.

The Frick Coal Co., subsidiary of the U. S. Steel Corporation has been operating about 15 per cent of normal in coke production and less than 50 per cent in coal production.

This readjustment in wages is expected to stabilize a demoralized coal market. Big buyers have held back their contracts waiting readjustments in wages. The new Connelville region scale puts wages back to the 1917 level.

Independent coal companies are expected to cut wages to the Frick basis.

**BABE RUTH STEPS OUT 100 PER CENT BETTER THAN '20**

NEW YORK, May 13.—Babe Ruth has doubled his 1920 output of home runs to date.

One year ago today the sultan of swats had 5 smashes to his credit.

Thursday at Detroit Ruth picked George Dauss for his tenth homer for the present season and he needs but two more to equal his last year's record up to May 31 when he had a total of twelve.

A big majority of baseball critics were skeptical regarding Ruth's chances of breaking his own world's record this year prior to the start of the season one month ago. But it looks different now.

In order to equal his 1920 pace, Ruth must make 14 more homers between now and July 5. He has nearly two months in which to accomplish this feat. That he will give his 1920 mark the hottest kind of bombardment seems certain and at the rate he is going now, he will send it crashing into the discard.

**NEW YORK, May 13.**—Following charges made against him before the state assembly, J. E. McGivray, president of Kent normal school, today filed libel suits aggregating \$75,000. Of Peter W. Doyle, of Hudson, Ohio he asks \$50,000. He asserts that Doyle swore to an affidavit that he, McGivray, was caught having the college stenographer, which he claims is false.

S. L. Elv, of Niles, Ohio, former member of the board, made defendant in a suit for \$25,000. He is accused of aiding in obtaining false affidavits against the character of the plaintiff.

**SCORE FLEE TEXAS STATE PENITENTIARY**

HUNTSVILLE, Texas, May 13.—Between 25 and 400 inmates of the state penitentiary here escaped Thursday.

Lee Anderson, a guard, was believed to be dying and T. H. Arnold, another guard was seriously wounded as the result of a gun battle when the men made their dash.

About 30 shots were fired. The fugitives were well armed and when last seen were scattering and heading for Phelps Junction.

Officers are guarding the Phelps Junction station.

**PROF. TIGERT NAMED COM. OF EDUCATION**

WASHINGTON, May 13.—President Harding today appointed Prof. John James Tigert, widely known educator and lecturer, to be United States commissioner of education, succeeding Dr. P. P. Claxton.

Prof. Tigert's home is in Lexington, Ky. He is 79 years old and is a native of Tennessee. He was born in Nashville where his father was a Methodist bishop.

In recent years Dr. Tigert has held chairs in Center College, Kentucky Wesleyan, and in the University of Kentucky.

**Few Wealthy Presidents.**

Eight of our Presidents were men of wealth when they took the office—Washington, Madison, John Quincy Adams, Van Buren, Polk, Fillmore, Pierce and Buchanan. Cleveland left the White House rich at the end of his second term; and Roosevelt, who was always well off, having inherited a fortune from his father, a glass importer, became much wealthier before he died.
